

# RESUME

## Vivek Mengu

### Senior Software Engineer II

---

I'm an Application Engineer with 7yrs work experience.

Experienced in developing ReactJs web applications with modern technologies like Typescript, Redux, Saga, Webpack. Hands-on experience in improving application performance and code optimization. Have built SAAS applications from scratch to production ready and also worked on major Headless CMS.

#### Address:

404 / 1, Shree Shiv Sai Society, Hasu Tandel Marg. Prabhadevi  
Mumbai - 400025.

**+91 8169979459**

[vivek.mengu016@gmail.com](mailto:vivek.mengu016@gmail.com)

---

#### SKILLS

HTML, CSS / SCSS, JavaScript (ES6+), TypeScript, ReactJs, Redux, Saga, React Final Form, Gatsby, NextJs, NodeJS, Express, Jest, Cypress, Git, Jira, Wordpress, Ghost, Strapi and a strong understanding of Headless CMS & Frontend libraries.

---

#### RESPONSIBILITIES

- Developed existing AngularJs application in ReactJs using Redux, Saga, Typescript, and Webpack 4 with reusable code.
- Developed isolated UI components using StorybookJs, Error handling and data validation.
- Implemented Webpack with env-based code optimization and proxy to different API servers, and aliases for common components.
- Added route-based chunks using Webpack magic comments.
- Improved application performance and code optimization.
- Have an understanding of how micro frontend works and implement the same.
- Helping other teammates solve bugs and guiding them to write better business logic and provide effective solutions.

- Good hold on Nginx, AWS lambda, Cloud functions, firestore.
- Have got exposure to an agile way of working.

---
